Eric et al-

Following up on our conversation yesterday regarding Round 2B GW Cores that we had worked on the middle of June 2005.

I have mapped and provided coordinates for the following samples (as discussed):

GW 8,9,10

GW 29,30,31,32,33,34,35

GW 55

Attached is a spreadsheet with station locations and a figure with River Miles 3-4, 6-7 & 7-8.

Additionally, I have locations GW 50, 51, 52 noted as "Remove (Round 2B)" in my notes from June, although they are noted just "Remove" in an spreadsheet from you (06/07/2005 5:15pm) so I've mapped it out here.

Please let me know whether you want these 3 locations in or out- I can easily send a version of the map w/o these 3 locations.

Thanks,

Ben
